**Is your tribal court struggling to meet the needs of opioid addicts in your community?
Do you want to know more about substance abuse treatment approaches for opioids
and how they may affect participants in your court programs? Come join us for a FREE
webinar to learn about opioid addiction and treatment!**

Opioids are decimating communities across the nation. This webinar will discuss the challenges of opioid addiction and recovery. The rise of both prescription drug abuse and the return of heroin mean that many communities, particularly rural communities, are struggling with getting necessary services for treating opioid users. This is especially true of tribal communities. In addition, the journey to recovery for opioid users is long and complicated. Justice professionals who work with opioid users will benefit from having an understanding of the psychopharmacology behind opioid addiction and treatment for opioid addiction, including medically assisted treatment.
